PROFILE

Front-End Developer with 3.8 years at Capgemini, where I led UI development for major DBS projects. Specializing in Angular, I'm driven by a passion for crafting user-friendly, high-performance applications. My experience spans a range of modern technologies and frameworks, enabling me to create solutions tailored to project goals. Focused on impact, I aim to bring ideas to life through seamless, engaging digital experiences. Let's make great things happen!

WORK EXPERIENCE

Jul, 2023 - Nov, 2024 **SENIOR SOFTWARE ENGINEER, Capgemini**

Led development of new features in a full-stack Angular app, enhancing functionality and user experience through effective architecture and implementation.

Tech Stack: Angular, TypeScript, HTML, CSS, Angular Material, PrimeNg, REST APIs, Git, RxJs

Jul, 2021 - Jul 2023 **SOFTWARE ENGINEER, Capgemini**

Enhanced Angular projects with full-stack capabilities, developing StreamSets pipelines for data extraction and integrating back-end API with Spring Boot.

Tech Stack: Angular, StreamSets, Spring Boot, REST API

Mar, 2021 - Jul, 2021 **SOFTWARE ENGINEER INTERN, Capgemini**

Mastered full-stack development with Angular for dynamic UIs and Java Spring Boot for strong backend solutions, creating responsive, high-performance applications that balance functionality, usability, and scalability.
